Expert Service

Beacon Sales Company is a full-service supplier of commercial and residential exterior building products to general contractors.

Value Engineering – Our experienced and well-trained staff can assist you in identifying cost effective solutions at the bidding, submittal and construction phases of your projects.

We're Connected – Most of your subcontractors are our customers – we can help you find and qualify the right subcontractor for your projects.

New Construction Architectural Assistance – our Beacon Rep Group is trained in all the systems that make up our Building Envelope offerings. At your request, they will review plans and specifications with the architect and your personnel to help your projects meet code requirements and come in on time and on budget.

Renovation Projects – We can provide on-site evaluations and detailed condition reports of existing building envelope conditions and steer your project to the most cost-effective solution to fit your customer's needs.

We are a stocking distributor of building materials with 14 locations across New England. We can deliver the right materials and accessories to your job site when they are needed.

We're Big – We are part of Beacon Roofing Supply, a \$1.3 billion company with 148 branches located in North America. Big enough to purchase aggressively and price competitively. And, big enough to employ knowledgeable construction professionals ready to serve you.

WE SUPPLY SOLUTIONS
